**Week of May 6-11, 2012**

**Potential or Expected Press Stories, Significant Policy, Regulatory, or Legal Actions:**

**May 7** - Validated results of EPA's sampling of the fourth and final group of home wells tested in Dimock, Pennsylvania, (the last 14 of 61 homes), will be shared with affected homeowners; face-to-face meetings with interested homeowners will be conducted. Media coverage has been heavy and will continue as additional residents receive their sampling results.
